(S.L.A.M., MORD)

## Biography

Keepsakes, the moniker of British-born, New Zealand producer and DJ James Barrett, has been going from strength to strength in the murky world of underground techno in the past few years. His unique and gritty productions have led to 12"s on Ansome and Ossian's South London Analogue Material and Germany's Mindcut, and a release on MORD's Herdersmat compilation. As well as this he has seen European tours and has hosted the 'Haven' club nights in Auckland alongside Jaded Nineties Raver, working to push his crunchy sound to dancers at home and Abroad.
